ChainBrain

AI DRIVEN IDEA LEDGER

Protecting and Funding your brainchild

Protecting an idea is not simple

- Hard to prove timelines and idea ownership
- Difficult prior art/competitive monitoring

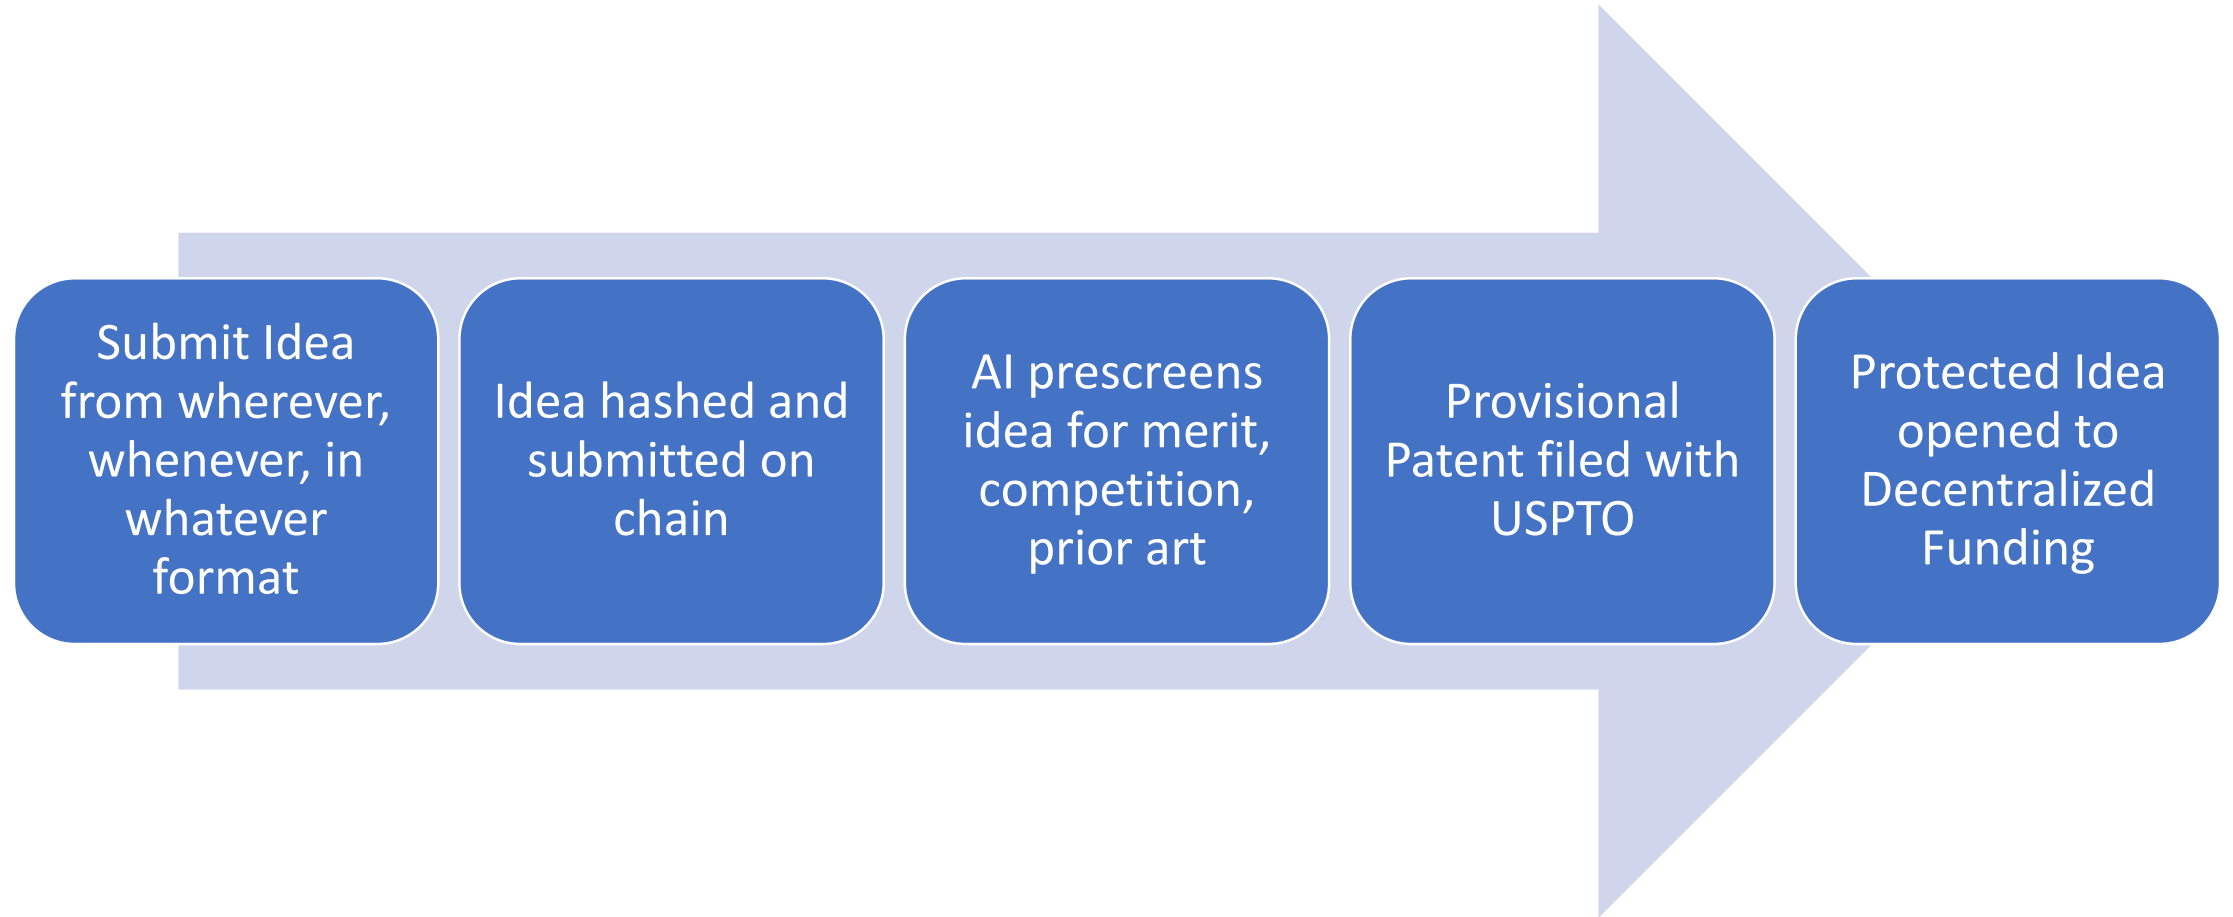

Funding is a long, painful process

- Dependent on networks and often patronage
- Not democratic - Is an Art, not a Science
- “Wisdom” & Decision Making is centralised

ICO's have not proven to be very reliable either:

ChainBrain: AI Driven Idea-Ledger

Empowering the next billion dollar idea

— We help foster creators of great ideas, thinkers and innovators, and secure them on the blockchain.

/ ABOUT CHAIN BRAIN

Chain Brain is a place to record your ideas in the blockchain.

You think. We will file the patent.

If you had an idea, and wanted to patent it, you can stop looking. We store and secure your idea in the Blockchain and asynchronously launch a patent application. You relax and think about that next unicorn, we'll work hard and set it in stone.

1

Define

Your idea in any format or file that you want.

2

Register

Register your idea assets in our blockchain.

3

See the magic happen

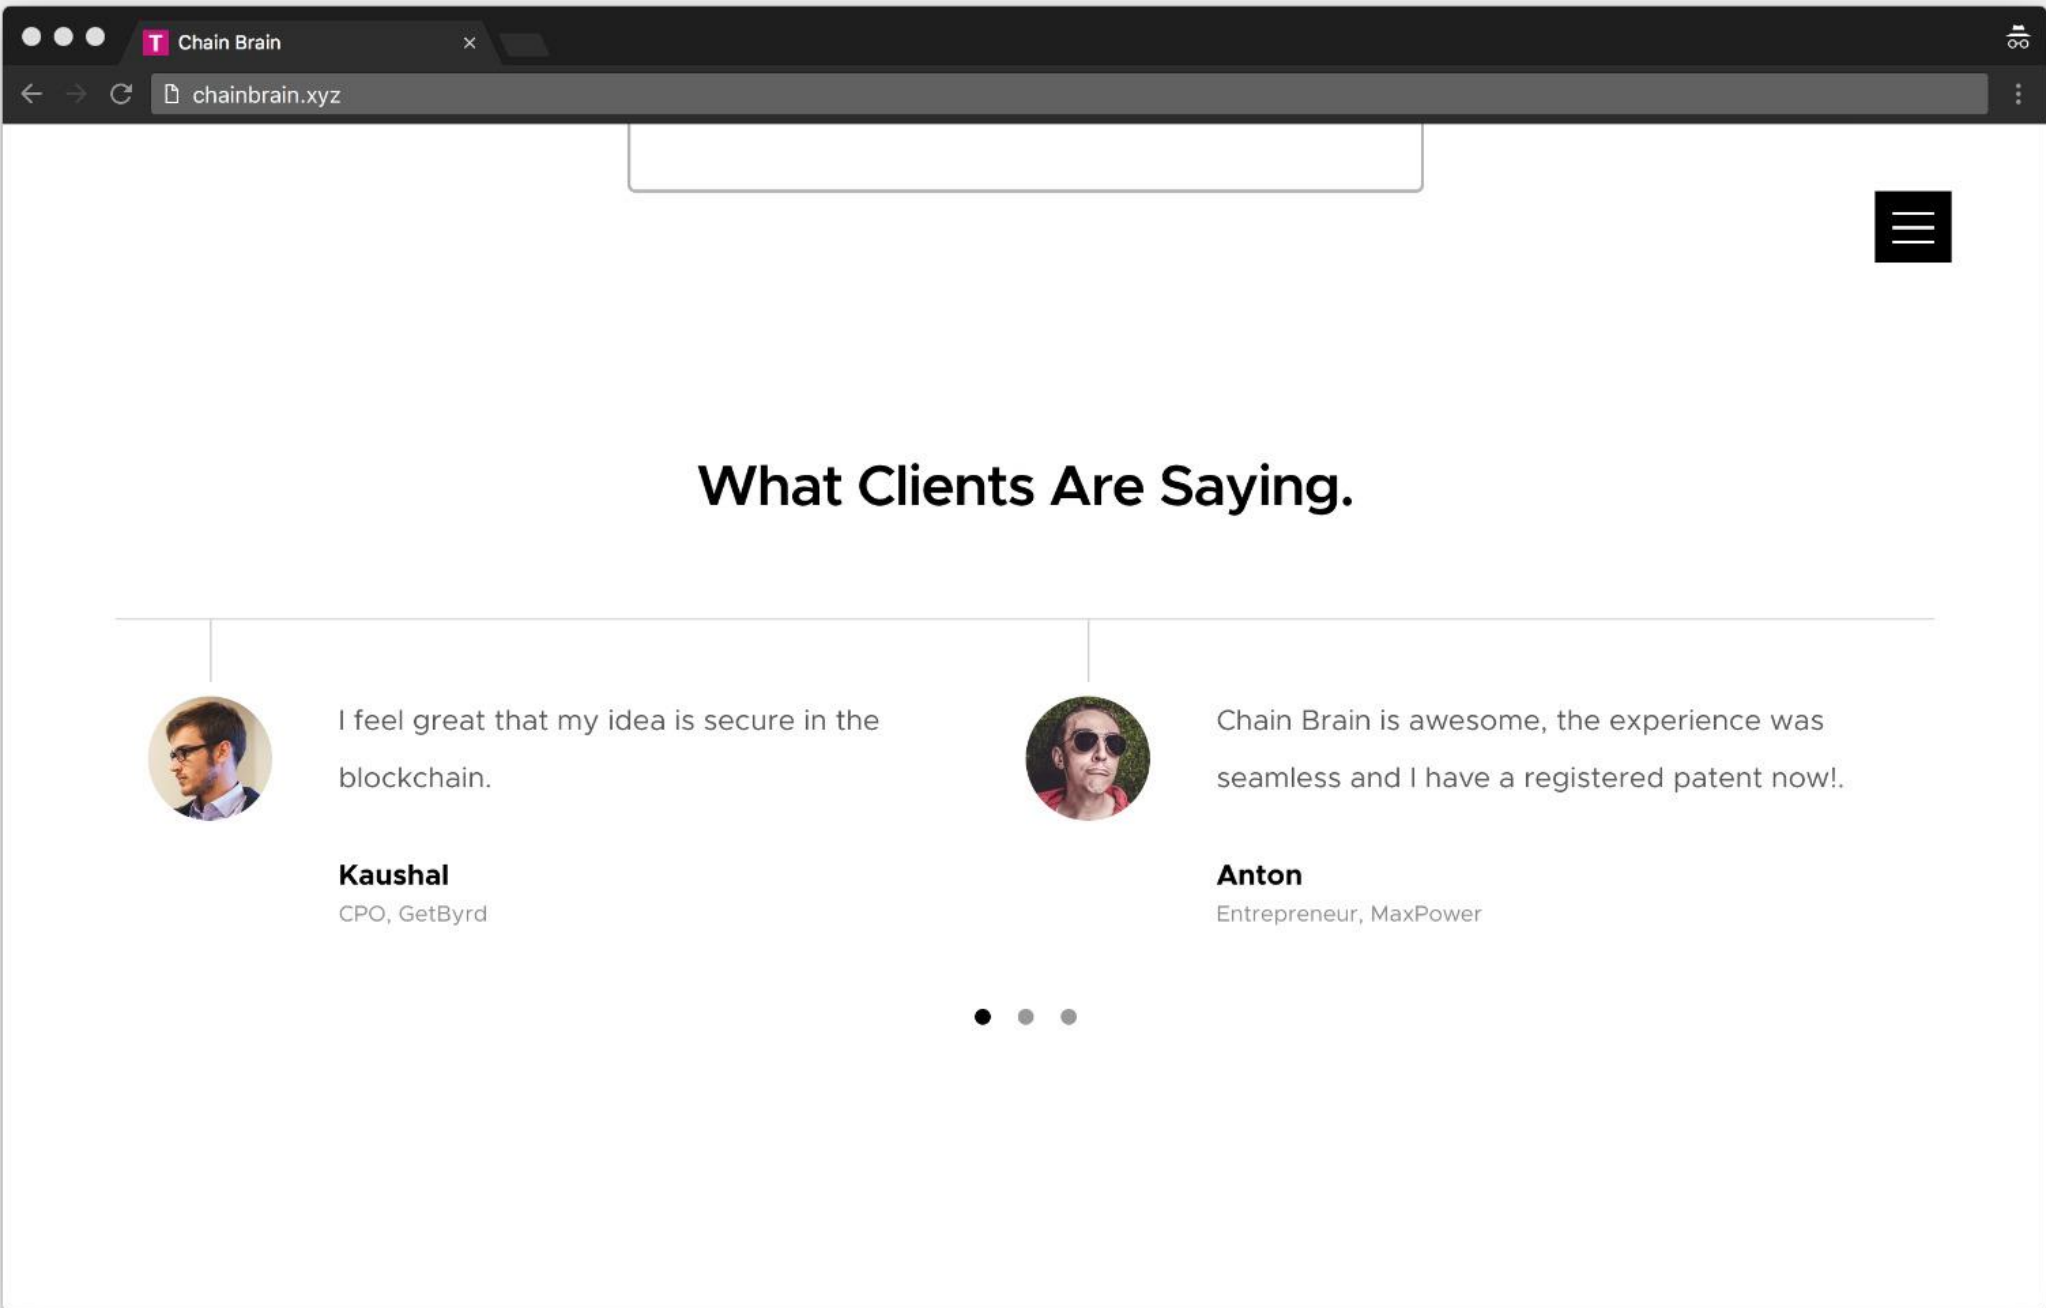

Your idea is now registered and secured in the blockchain. We will start filing the patent.

/ TRY IT NOW

Upload your idea to the blockchain.

Drop files here to upload

The ChainBrain team

60+ years of collective experience, \$90M+ raised, 10+ products delivered, AI, ML, Blockchain expertise

KK

Serial Entrepreneur,
Biz-wiz, AI techie
(Silicon Valley)

MK

Top AI/ML Hands-
on leader
(New York)

Sidd

Blockchain do-er,
VC, Hacker
(Berlin)

Anton

ML/Blockchain
researcher, Dev
(Berlin)

Suhas

Top ML Architect,
Dev
(Berlin)
